A fellow-servant is defined to be any person who is employed in the common service of such person or corporation, and while so engaged are working together at the same time and place to common purpose of the same grade. The bill also provides that certain damages shall be recoverable for certain specified injuries and covers under what circumstances liability will follow. The bill is a general one.

OPPOSITION SALE!

May Sale Prices Will Be Smashed to Atoms.

For a number of years certain houses here have had what they call "May Sales." They imply by this term that during the month of May goods will be sold very cheap—goods are sold at our establishment at "May Sale" prices all the year round, but, beginning to-morrow, prices will be hammered still lower. Our Great Opposition Sale will prove beyond a question that we sell desirable merchandise at lower prices than any house in the city of St. Louis.

REV. NEWTON'S UTTERANCES.

They Lead to the Revival of the Old Heresy Commission.

NEW YORK, April 30.—An immediate effect of the sermons on the resurrection by Dr. R. Heber Newton of All Souls Episcopal Church, was the recovering in Christ Church last night of the commission appointed four years ago by Bishop Potter to inquire into charges of heresy made then against Dr. Newton. The commission had not met before for a year and a half, indeed not since the death of the chairman, Archbishop Thomas C. Peters. It was said in church circles that this sudden awakening of the long dormant organization indicates that Dr. Newton is to be called to account for his alleged heretical attitude the past few years, not because of the old sins, but because of the new. After the meeting, which lasted an hour, Dr. Shipman, who acted as temporary chairman, said to a reporter: "There is really no reason why we could not tell the commission was first formed to divide the nation of what passed in its meetings. I will say, though, that in the absence of a chairman, and until one is appointed by the action could be taken."

IN A QUEER PREDICAMENT.

San Francisco Has No Money to Pay for Supplies.

SAN FRANCISCO, Cal., April 30.—Nine hundred inmates of the City and County Almshouses are on the verge of famine, medicine and food supplies at the hospital are at low ebb; in the county jail the larder is nearly empty, and in the various houses of the fire department the ovens are gone or nearly gone, and only a few bales of hay are in each of the stables attached. This queer condition of things is due to careless management of the city and county's financial affairs during the first half of the present fiscal year. There is no money in the Treasury that can be used for the payment of supplies and the deficit for the year will reach \$250,000. The Supreme Court has decided that the funds obtained from the tax levy in one fiscal year cannot be used to pay for supplies purchased in a previous year. This means that if the contractors should honor the requisition from the various city departments, they would not receive pay for the goods delivered. The heads of departments asked the supervisors what the contractors were going to do, and the latter asked the supervisors what they were going to do, and the contractors, pending answer, refuse to deliver any goods on requisition.

REAL AND VITAL ISSUE.

Senator Voorhees's Plain Talk in Favor of Free Silver Coinage.

INDIANAPOLIS, Ind., April 30.—Senator Dan Voorhees, in a talk with the Washington correspondent of the Sentinel, comes out squarely for the free coinage of silver at 16 to 1. He says: "The real and vital issue now presented to the American people is the proposed elimination of silver from our currency, its total overthrow and destruction as a money metal and the use of gold alone. This is now what is meant by the movement against the free coinage of silver, whatever disclaimers may be made to the contrary. This movement means the destruction of one-half of the debt-paying money of the United States and of the world. If it should be successful it will double the burdens of every debtor and multiply the gains and income of every creditor, wherever the sun shines. "The debts of the American people at this time, both public and private, are appalling in amount. They have been contracted on a bimetallic basis, and it is now proposed to make them payable on the basis of gold alone. The two metals alone constitute the specie basis for such paper currency as may be put in circulation. If silver money is destroyed, paper circulation must be contracted in that proportion. Every form and kind of money must become that much scarcer and harder to get in exchange for labor and the products of labor. Such a policy is, to my mind, simply horrible. I have not a particle of doubt as to the result of the contest now going on. The enemies of silver will be driven to the wall."

WEDDED ON HER SICK BED.

Romantic Marriage of Prof. Sims and Miss Anna Ureghart.

EMPORIA, Kan., April 30.—A romantic wedding occurred here, the principals being Prof. Wm. O. Sims and Miss Anna Ureghart, the ceremony taking place at what may prove to be the death-bed of the lady, who was thrown from a carriage and seriously injured. The wedding was to have taken place a month later, but owing to the accident and the desire of both to be united ere death could separate them, the ceremony was hastily performed yesterday.

ARMY WORM IN KENTUCKY.

DANVILLE, Ky., April 30.—Millions of army worms have appeared on one or two farms in this county, devastating all vegetation. This is the third visitation in forty-five years. It is the same worm now playing havoc in Sparta, Kentucky and Tennessee.

THE CLEVELAND PLAN.

WASHINGTON, D. C., April 30.—President Cleveland has eschewed the Monroe doctrine, if a gentleman who conversed with him correctly reports the conversation. The President was irritated at the constant references to the Monroe doctrine, which he said was formulated to thwart the plans of the Holy Alliance to gain a foothold on American soil. This danger seemed away long ago, and the President does not see why the Monroe doctrine should be maintained.

NICARAGUA HAS COME TO TIME.

She Agrees to Pay the Money Demanded by England.

AUTHORITIES ARE NOTIFIED.

The Ultimatum to Be Satisfied Fifteen Days From the Time British Ships Leave Corinto.

MANAGUA, Nicaragua, April 30.—The Nicaraguan Government has formally decided to accede to the compromise proposition of the settlement of the pending troubles, and this decision has been communicated to the authorities at Washington and London. According to the proposition, Nicaragua agrees to pay the \$50,000 in London fifteen days from the time the British ships leave the harbor of Corinto. It now remains for Great Britain to agree to this condition.

The Government's course is regarded as shifting on Great Britain all further responsibility for the trouble. The most positive assurance of the prompt payment of the money have been given, so that there may be no question of uncertainty on this point.

CAPITAL REMOVAL IN COURT.

Suit Which Alleges the Affair to Be a Money Grab.

In the Circuit Court, late Tuesday afternoon, Thomas A. Meyers, assignee of the claim of Michael J. Kinealy, an attorney, sued the Commonwealth Land and Development Company of Sedalia, for \$4,000, alleged to have been earned by Kinealy as attorney.

The petition recites further that Mr. Kinealy pointed out to his clients the defects in their resolution, and that, on his advice, they got Judge Dillon, the New York General Agent of the Missouri Pacific Railroad Company, to draft the resolution that afterwards passed the General Assembly. It is not stated whether Judge Dillon was paid for this service in stock or cash.

MASHER IN DESPAIR.

Unless His Brother Sends Money He Must Go to the Workhouse.

R. C. Carleton, the clerk employed by the Cupples Woodmen Co., who was fined \$100 by Judge Morris Monday for insulting a lady on the street, is still confined in the hold-over at the Four Courts. When seen in his cell by a Post-Dispatch reporter during the morning Carleton presented a very dejected appearance and was exceedingly apprehensive lest he be sent to the workhouse before he could raise the money to pay his fine. He says he owns considerable real estate, both in Macon and Rome, Ga. He telegraphed to his brother, who resides at the former point, to raise \$100 on this property and send it to him at once, but he has not heard from him. He will be held one more day and if the money is not forthcoming he will be sent to the workhouse.

ILLINOIS CROP REPORTS.

The Cereals, Grasses, Fruit and Gardens in Good Condition.

CHICAGO, Ill., April 30.—The Illinois weather crop bulletin issued to-day says: The past week has been favorable for the preparation of corn land. Planting is progressing rapidly in Southern counties and the soil is in good condition, though dry. The showers of last week being largely confined to eastern counties, and they were everywhere light. The average rainfall for the week was about .25 of an inch; the temperature and rainfall were considerable above the normal. Winter wheat is reported in good condition except in a few Southwest counties where drought is affecting it. Rye, spring wheat, oats, clover, timothy and other grasses are generally in good condition, although they are growing slowly from lack of rain.

Fruit is blossoming and setting in profusion and the outlook is most promising. Potatoes and gardens are growing finely.

TENNESSEE GOVERNORSHIP.

The State Legislature Considering the Turney-Evans Contest.

NASHVILLE, Tenn., April 30.—The two Houses of the State Legislature met in joint convention to-day to consider the contest for the Governorship between Peter Turney (D.), the present incumbent, and Henry Clay Evans (R.). A resolution, providing for the appointment of a committee to report rules governing the convention was adopted.

The report of the Investigating Committee, which favors the seating of Turney, was then read. The report is signed by the Democratic members of the committee. The minority report is signed by the Republican members of the committee.

ROYALTY PRESENT.

Marriage of the Duchess of Marlborough to Lord Heresford.

LONDON, April 30.—At the fashionable St. George's Church, Hanover Square, at 1 o'clock this afternoon the widowed Duchess of Marlborough, formerly Mrs. Louis Hamersley of New York, was married to Lord Wm. Heresford, formerly Colonel of the Ninth Lanciers, who gained the most coveted of all military decorations in Great Britain, the Victoria Cross, by riding back into the thick of the fight at the battle of Ulundi to rescue a lance, whom he placed across his saddle and then cut his way out to safety.

MARRIED IN ENGLAND.

Miss Josephine Chamberlain of Cleveland United to J. Scarisbrick.

LONDON, April 30.—At Bridge to-day Miss Josephine Chamberlain, youngest daughter of W. S. Chamberlain of Cleveland, O., was married to J. Scarisbrick, Esq. of Lancashire. Lord Berwick was the best man. Capt. Herbert Scarisbrick Major-Leyland, the husband of Jane Chamberlain, sister of the bride, formerly member of Parliament for Colchester, gave the bride away.

COERCINE POLICY.

The United Seven Said to Be Ready to Turn Stone Down.

There will be more fun in the Council meeting to-night. It is about settled that Mr. Stone, for Harber and Wharf Commissioner, will be turned down.

A number of the seven said Tuesday afternoon: "Stone will be turned down to-night. That is sure. As to Holman, I do not know."

On the other hand, it is almost as well settled that the Mayor will refuse to be coerced, and it is not likely any appointment will be sent in tonight. The Mayor was not at his office Wednesday, and it was given out that he would only be down to sign a few official papers. Lots of disappointed callers were on hand.

TWO CHILDREN BURNED.

Stanford Kimley's Ineffectual Attempts to Rescue His Little Ones.

Special to the Post-Dispatch.

ATCHISON, Kan., April 30.—The home of Stanford Kimley, in the country near here, caught fire yesterday during the temporary absence of Mr. and Mrs. Kimley. Two of their children, aged three years, and fifteen months, were burned to death. Kimley saw the smoke of the fire and ran to the burning building. He heard the cries of his children inside, and tried to rescue them, but it was impossible to get to them. He was badly burned in his attempt. The bodies were afterwards found in the ruins, burned to a crisp. The origin of the fire is unknown.

ODD EXEMPTION CLAIM.

How a Brick and Tile Company Seeks to Evade the Income Tax.

MASON CITY, Io., April 30.—An interesting point with reference to the income tax has come up here. The Mason City Brick and Tile Company, in making its returns, claims exemption under the Supreme Court decision, as all its income was derived from real estate in the shape of brick and tile. The collector has refused to allow the exemption, and the point may be referred to the courts.

AGREEMENT REACHED.

Journeymen Win All Points in Their Fight Against Sweat Shops.

The sweat-shop strike will be settled in six days, so the journeymen declare. Monday the manufacturers and the journeymen who reached an agreement last week, conferred as to the best method of bringing the recalcitrant bosses to terms. The manufacturers then agreed to furnish work only to shops run in accordance with the State factory law and the local sanitary regulations.

PINKERTONS CALLED IN.

Outside Help Secured in the Durant Case.

SAN FRANCISCO, Cal., April 30.—The police authorities have invoked the aid of a Pinkerton detective in the Theodore Durant case. Detective Simons, who was formerly at the Chicago headquarters of that agency and of late years has been connected with the Portland, Ore., branch of the service, has arrived in this city, and has taken copious notes from which to map out his line of work.

Whether this acquisition will enable the detectives to obtain further evidence against Theodore Durant, the young man accused of these murders, is problematical. In the meantime additional circumstantial evidence is cropping up and the police feel more than ever convinced that they have the perpetrator of the crime.

Chauncey M. Johnson, clerk in the State Board of Trade exhibit rooms, says that he is positive Durant visited the rooms on April 12 last between 4:30 and 5 o'clock in the afternoon, in company with a young woman who answered "Durant's" description. He says he noticed the couple particularly, because he requested them to leave at the closing time shortly before 5 o'clock. When he saw Durant's picture in the papers he puzzled over it until he remembered that he had seen Durant in the room in a lodging house, awaiting her coming. He looks at the picture and says: "I saw her at the race track yesterday, in the brief interview, he intimated that if the girl would consent to marry her, he would marry her. I saw her at the race track yesterday, in the brief interview, he intimated that if the girl would consent to marry her, he would marry her. I saw her at the race track yesterday, in the brief interview, he intimated that if the girl would consent to marry her, he would marry her."

Miss Williams came from Alameda to San Francisco on that day at 4:30 p. m., but did not reach the hotel where she was living until after 6 o'clock. She went out that night before 8 o'clock. The next morning her dead and mutilated body was found in the church library room. Durant has all along denied meeting the girl on that day, while the police whisper that he made an appointment with her that afternoon to meet him in the church that evening and that she assaulted and slew her.

After Durant had been arraigned yesterday for the murder of Blanche Lamont he said he was not worried over the matter and his demeanor certainly did not indicate any distress of mind. It is on this charge that he is to be tried, and the evidence is stronger against him.

IN OUR LAND OF THE FREE.

One Woman Who Works Nineteen Hours a Day for 80 Cents.

SPECIAL TO THE POST-DISPATCH.

NEW YORK, April 30.—The Legislative Committee investigating the sweating system of this city was told how Marion Caponi works on knee trousers. Her share is to make three button-holes, sew on fifteen buttons, turn up and sew the bottoms, for which she was paid 10 cents a dozen pairs. She works from 5 o'clock in the morning until midnight and with the aid of her children she could complete about three dozen a day.

Simon Steinmeyer, 60 years old, who works for his son at No. 61 Ridge street, said he worked for 10 cents a dozen pairs from \$3 to \$4 a week. He supports his wife and invalid daughter and he paid \$10 a month for rent and a small room. "For breakfast," he said sorrowfully, "for breakfast had a cup of coffee and a piece of bread. Some days I have less."

HER HYPNOTIC LOVE.

Mrs. Vermeiren Writes Three Letters and Then Kills Herself.

DENVER, Colo., April 30.—Unable to remove from her mind the strange hypnotic influence which she fancied was exerted over her by a music teacher, and suffering from unrequited love, Mrs. Soelle Vermeiren, 21 years of age, fired a bullet into her left breast, inflicting a fatal wound. In a letter to her husband, she coolly informed him that she loved Luther T. Hatt, the music teacher, and it was for his sake that she intended to take her own life.

Another letter was addressed to Hatt, and still another to his wife, both telling of the vain struggle of the writer to control herself and prevent unhappiness to all concerned. She wrote that, although she had married twice, she was the only man who ever struck the responsive chord.

WHAT YOU NOTICE

at first, perhaps, in taking the Carlsbad Sprudel Salt regularly, is a decrease in weight. It is getting rid of all the unhealthy, unnatural flesh and tissue—if you have any. That is what makes it so valuable in cases of obesity.

But after that, or if you are thin already, the firm, sound, healthy flesh that you need comes in a thoroughly natural way. Your digestive organs are put into perfect condition; your appetite is sharpened; there is no waste; the food that you take nourishes you.

No matter whether you're too stout or too thin—the Carlsbad Sprudel Salt brings you to the proper, healthy standard, either way.

The only genuine imported article has the signature of "EISENER & MENDELSON CO., Sole Agents, New York," and the seal of the city of Carlsbad on every bottle.

SPECIAL TO THE POST-DISPATCH.

SEBASTIA, Mo., April 30.—In the spring of 1928 John Roth and his wife, Elsie, both Swiss, died suddenly the same day, of pneumonia, on their farm in the Southern part of Pettis County, and were buried in one grave. They left a little 2-year-old girl, who lived with her grandparents, at Windsor, Mo. To-day a letter came from the Swiss Consulate at St. Louis saying that the little girl had been left a good-sized fortune by her grandmother, who died recently in Northern Switzerland. It was necessary to prove that the little girl's parents were legally married. The record of Pettis County failed to show it, but it is said the license was issued in Henry County.

DOUGLASS HAS HIS FAULTS.

But Submitting to Impertinent Inquiries Is Not One of Them.

SAN FRANCISCO, Cal., April 30.—Lord Sholto Douglas, one of the sons of the Marquis of Queensberry, awaits the coming of his sweetheart, Loretta Addis (Mooney) private life, from the town of Bakersfield, in the San Joaquin valley. Her sudden leap from obscurity to the limelight, owing to Lord Sholto's announcement of his intention to marry her, has evidently imbued a San Francisco correspondent with the idea that she would be a drawing card. So Loretta is billed to appear here next Monday night, and Lord Sholto, in a modest room in a lodging house, awaits her coming. He looks effeminate and seedy. He was at the race track yesterday, in the brief interview, he intimated that if the girl would consent to marry her, he would marry her. I saw her at the race track yesterday, in the brief interview, he intimated that if the girl would consent to marry her, he would marry her. Capt. John Poll's Method of Getting Loungers Off His Fence.

SPECIAL TO THE POST-DISPATCH.

NEW YORK, April 30.—Capt. John Poll of West Orange has in front of his place an old-fashioned fence that is always copied by Sunday loungers despite his protests. The other day he connected a wire on his fence with a trolley pole supporting wire which was reaching a trolley car. It was so that he could turn it on by pulling a cord from his window. He pulled the cord Sunday just when the trolley was chugging full. Some forty acrobatic performances ensued. It was funny until one man prepared to bring a \$200 damage suit. While the rest of the acrobats threatened to storm the house. The captain thinks he will not be bothered any more.

ROCHESTER, N. Y., April 30.—The bakers are fighting here, while the grocers and the public in general are reaping the benefit. Last Thursday morning, Rochester was hit by one of the bakers for bread at 24 cents a loaf. The next day he began selling loaves at two for a dime. Every grocer who cut and by Saturday night bread was sold for 1 cent a loaf. The war is continued this week. Some grocers bought this loaf for 5 cents and gave a street car ticket with each loaf. Another grocer advertised a loaf for 1 cent. The morning papers published advertisements of several grocers offering free bread.

THE LARDMAN'S OPINION.

When COTTOLENE was introduced the lardman predicted its demise with six months. As its popularity increased he consoled himself by saying: "It will never finish the year." Still the growth of COTTOLENE continued; it was the dawn of a new era—the beginning of better food and better health. As a last resort the lardman have themselves tried to sell imitations of COTTOLENE.

That was the crowning triumph of this great product. Its superiority was acknowledged because no inferior article is ever imitated. Which has the most force from a common sense standpoint—the lardman's opinion or COTTOLENE's success?

ON 'CHANGE.

WHEAT—The market was still unsettled, but in the new crop options weakness predominated; there was more pressure to sell than buy, and July declined $\frac{1}{2}$ ¢ below yesterday's close. The close was $\frac{1}{2}$ ¢ lower. Buyers $\frac{1}{2}$ ¢ lower. May was rather weak early and sold $\frac{1}{2}$ ¢ lower, but little for sale, and shorts becoming uneasy advanced the price $\frac{1}{2}$ ¢, and the close was firm.

The weakness that closed yesterday was clouded by the news of the fact that most market conditions were bearish. However, the grain in the West and general crop advices satisfactory,

were quite large—462,000 in flour and wheat from four ports—but did not help the markets any. The price of wheat fell to 2,250,000, and in the world's stock was much less than the local supply. This was the existing depression. The cable bales held out no encouragement and domestic markets closed weak.

On-day the farmers' market ½c above May and sold none, but at ½c above May this side and 1c above El side the United sold 15,000 bu to outside mills, though El side was offered at one time at ½c above May.

But early July opened at 63½c and sold to 61½c to 62½c to 61c, closing at 61½c bid; Aug. sold at 63½c to 64½c.

while clearances were good—162,000 bu. from four ports. Receipts were very small here and at Western markets 160,000 bu. were 127,000 bu. less than last week.

From yesterday's close there was % decline, but on Bradstreet's decrease in the available supply of 1,128,000 bu. rallied some, though weak again at close, with sellers of July within 1/16% of the bottom.

May % below yesterday and Sept. only % off.

Futures.—May sold at 45c to 45 1/2c and at close 45 1/2c bid. July sold at 47c to 47 1/2c to 46 3/4c and 46 3/4c asked at close. Sept. sold at 47 1/2c to 47 1/4c and 47 1/4c asked at close.

OATS—Beside the weakness brought forth by declining markets elsewhere, there was considerable liquidation, especially of May and prices declined. The close was weak and $\frac{1}{4}$ c below yesterday.

FUTURES—May sold at $29\frac{1}{2}$ c to $29\frac{3}{4}$ c; June at $30\frac{1}{2}$ c to $30\frac{3}{4}$ c; July at $31\frac{1}{2}$ c to $31\frac{3}{4}$ c; August at $32\frac{1}{2}$ c to $32\frac{3}{4}$ c.

Spot Grades—Lower No. 2 sold at $29\frac{1}{2}$ c to $29\frac{3}{4}$ c; No. 3 at $29\frac{1}{4}$ c to $29\frac{1}{2}$ c; No. 3 East Side at $29\frac{1}{2}$ c to $29\frac{3}{4}$ c; A car No. 2 sold E. Side at $29\frac{1}{4}$ c after call.

SAMPLES—Received, 137 sacks 18c local, 12c on track and 11c on lake. The close of No. 2 East car track at $10\frac{1}{2}$ c decline, but white wheat was well realized well sustained in price and a good business done, considering it was last day of the month.

to market, however, was firm for timothy, though it was quiet and only a small business done. Hardly any clover was offered in private prices mentioned.
